

Communications Executive

Redx Pharma plc is an exciting biotech company focused on developing novel precision medicines that have the potential to transform treatment in oncology and fibrosis. Redx develops and manufactures small molecule treatments using its world-class medicinal chemistry expertise and lab infrastructure based at Alderley Park, Cheshire UK (former AstraZeneca R&D facility). This is combined with a deep understanding of the molecular biology and genetics underlying diseases with high unmet medical need. Recent successes at Redx include the sale of two preclinical cancer assets to large pharma, one cancer asset entering clinical trials, and nomination of two fibrosis assets for clinical development.

The Role:

This is a great opportunity for an experienced Communications Executive to join a fast-paced Biotech company to support the delivery of the communications strategy across the business and to external stakeholders including investors and business partners through a range of channels.

Responsibilities include:

- Manage external communications materials such as press releases, presentations, website and the company's social media accounts.
- Support in writing content for business and investor audiences and lead the development of communication materials for key events/milestones (e.g. press release, Q&A, key messaging, communications plan)
- Responsible for creating content and messaging for use across email, video, social, web and print
- Overall responsibility of all the company presentations and website to ensure content is always up to date
- Participation in key projects, including development of annual report and conference preparation
- Monitor developments and trends in marketing and both traditional and digital media to inform communications
- Develop compelling communications content and leverage multiple media and online channels including social media to raise the profile of the company.

The ideal candidate will have:

- Graduate with 3-4 years' experience working in a communication focused role either in-house or at a communications agency within the healthcare sector with knowledge of global biotech / healthcare market and innovative life sciences environment and the challenges impacting it
- Strong verbal and written communications skill with experience of writing content for press releases, stakeholder/investor comms or internal communications
- Experience of creating and translating scientific / technical content for a broad range of audiences
- Strong media relations experience and understanding, including in digital and social media
- Proficient in MS Office especially Word and PowerPoint and excel

In return, we will offer you the ability to work for an exciting drug discovery company where you will get exposure to a broad range of activities.

The closing date for applications is 18th February 2021
